

# CORVUM

## Hot Desking

Access your SIP phone from select devices in your organization. Log into another desk phone and your specific extensions and personalized settings will already be set up!

To set up your Hot Desking, contact [support@corvum.io](mailto:support@corvum.io)

We will assign a unique ID number to each user that wishes to use this feature, which they will use to sign into designated desk phones.

Once you have your ID number assigned to you, use Feature Codes to enable and disable hot-desking.

### **HOT-DESKING**

Enable hot-desking	*11
Disable hot-desking	*12
Toggle hot-desking	*13

After dialing the Feature Code to enable hot-desking, you will be asked for the PIN to determine your existing settings.

*Note: Disable hot-desking after you finish work!*
